

78. The unleaded gasoline of claim 77, wherein the sulfur content is no greater than 10 ppmw.

79. A method for preparing an unleaded gasoline, which comprises controlling the blending of components such that the amount of sulfur is no greater than 15 ppmw.

80. The method of claim 79, wherein the amount of sulfur is no greater than 10 ppmw.--

**REMARKS**

Entry of the foregoing amendments prior to an examination on the merits is respectfully requested.

By the present amendment, the claims have been amended to render the claims consistent with the prosecution that transpired in connection with parent application, U.S. Serial No. 09/071,793.

Application No. \_\_\_\_\_  
Attorney's Docket No. 005950-498

Further and favorable action on the merit is believed to be next in order, and is  
earnestly solicited.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
